Information Disclosure Statement

The information disclosure statement filed October 27, 2003 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each document listed that is not in the English language. It has been placed in the application file, but the information therein which has been lined through has not been considered. All initialed documents have been considered.

Claim Objections

Claims 3,911,13 and 16 are objected to because of the following informalities: the claim was not included in the latest amendment and there is no indication that the claim has been cancelled. Appropriate correction is required. Claims 3, 9, 11, 13 and 16 must be presented or cancelled in response to this action.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The term "ergonomically advantageous" is not properly defined as this height would be different for each user of the device. Individuals may change the settings as needed, but only after a setting based on the quantity of articles on the retrieval pallet is determined. Therefore it is indeterminate as to how the

Art Unit: 3652

ergonomic advantageous retrieval height is established. In the below rejection of claim 14 the ergonomic advantages of the device are not treated as they are not defined.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 2,4-8,10,12,14,17 and 18 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1,24,27,28,31-36, 38 42 and 44 of U.S. Patent No. 6,602,037. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of independent claim 14 in the instant invention are all present in claim 27 and the claims from which it depends of U.S. Patent No. 6,602,037. The dependent claims in the instant application are nearly word for word copies of the dependent claims from the above mentioned U.S. Patent. The table below list the matching of the claims in regards to this rejection.

Response to Amendment

Amendment C filed on September 26, 2003, has been entered into the record.

Response to Arguments

Applicant's arguments with respect to claim 14 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
